BATTERY LAWN MOWERS

Take on more lawns with STIHL's extended line of battery-powered lawn mowers. Ideal for a wide range of cutting needs in noise sensitive areas.

AK BATTERY SYSTEM **AKIII**

Real powerhouses for ambitious yard work.

AP BATTERY SYSTEM **APIII**

High performance battery tools for daily professional use.

COMING SUMMER 2025

NEW RMA 348 **AKIII**

The RMA 348 features a 19" steel mowing deck and is highly maneuverable for quick and efficient grass cutting. This lawn mower features an adjustable handlebar and textile grass catcher.

COMING SUMMER 2025

NEW RMA 348 V **AKIII**

The variable-speed, self-propelled action of the RMA 348 V helps reduce user fatigue and allows speed choice to optimize mowing depending on the type of grass and terrain. This lawn mower features the textile grass catcher, side discharge chute, and mulch plug for 3-in-1 mowing options.

COMING SUMMER 2025

NEW RMA 353 **APIII**

The RMA 353 battery walk-behind mower features a brushless motor with ECO mode to maximize energy efficiency as well as a highly durable, 20" steel mowing deck and adjustable handlebar to help reduce user fatigue and offer optimal maneuverability.

COMING SUMMER 2025

NEW RMA 353 V **APIII**

The self-propelled RMA 353 V mower with 21" steel mowing deck features a brushless motor with Eco mode as well as variable speed range to optimize efficiency across a variety of applications.

V - VARIO DRIVE P - PERFORMANCE

RMA 460 **AKIII**

The RMA 460 battery-powered lawn mower has a 19" mowing deck and three mowing options including mulch, side discharge and rear bag. The RMA 460 can be powered with the AK 20 or AK 30 battery. This unit features an ECO mode to conserve power and has an extra storage slot for a spare battery.

RMA 510 **APIII**

STIHL's RMA 510 battery lawn mower is great for working on large lawns. This unit features a 7-level cut height adjustment, 21" deck and the convenience of side discharge, bagging or mulching. This unit features an ECO mode and holds two AP batteries, one while in use and one for storage.

NEW RMA 756 V **APIII**

The RMA 756 V is a powerful self-propelled battery mower from STIHL with an energy-efficient 72 V brushless motor and a mono-comfort handlebar with built-in HMI.

RMA 460 V **AKIII**

Part of the AK battery series, the RMA 460 self-propelled lawn mower comes with all the same features as the walk behind version of the RMA 460 but includes a variable speed transmission.

RMA 510 V **APIII**

The RMA 510 V battery lawn mower is the self-propelled version of the RMA 510 lawn mower and comes with all the same features. The drive mechanism offers the convenience of variable speed.

RMA 765 V **APIII**

The professional RMA 765 self-propelled battery mower is great for regular care of lawns in particularly noise-sensitive areas. Featuring a 25" cutting width, a 2-blade flow-optimised mowing unit, cut-height adjustment and electric Vario wheel drive. This professional lawn mower has a 80-litre grass catcher bag with a fill-level indicator.

iMOW® ROBOTIC MOWERS

LAWN CARE MADE EASY.

Devote "mow" energy to what really matters.

Once installed and programmed, your robotic mower will keep the lawn beautifully manicured and healthy while you enjoy time with friends, family and favourite hobbies.

01 QUIET

At only 60 dB, iMow® is so quiet that it can be programmed to operate at any time of day or even night, without disturbing you or your neighbours.

02 INTELLIGENT

Set a weekly mowing schedule that works for you to maintain your lawn. iMow® will adjust its charge time based on the schedule you set. In addition, a series of adjustable sensors allows iMow® to be customized for every environment.

03 GREEN

Using iMow® will enhance the health of your lawn. Unlike a traditional lawn mower, iMow® cuts a small part of the plant. These fine clippings eliminate the need for cleaning and feeding your lawn. The end result is the need for less fertilizer and irrigation.

04 CLEAN

Drawing very little power, the docking station can intelligently manage charge intensity to prolong the service life of the lithium-ion battery.

iMOW® 5

0.8-2.4" • 7.8" • 40%/22° • 75 hrs • 16,000 sq ft

This robotic mower features a three-blade system, electric height adjustment, speed adaptation, and 40% incline capability for a clean cut. It's easily controlled via the MY iMOW® app over WiFi or Bluetooth®, integrates with smart home systems, and has voice and LED visual communication. With a 28 cm cutting width, smart docking, and efficient charge management, it minimizes active mowing time.

iMOW® EVO

This fully automatic robotic mower has a modern design and expanded features. It offers app control via mobile network from anywhere and an LED matrix for visual status updates. With a faster travel speed of 0.5 m/s, it reduces mowing time and increases garden flexibility. Its incline capability is up to 45%, expandable to 55% with the iMOW® Upgrade Kit 10.

iMOW® 5 EVO

0.8-2.4" • 11" • 45%/24° • 60 hrs • 16,000 sq ft

iMOW® 6 EVO

0.8-2.4" • 11" • 45%/24° • 90 hrs • 32,000 sq ft

NEW

iMOW® 7 PRO

0.8-2.4" • 11" • 45%/24° 125 hrs • 53,000 sq ft

The iMOW® 7 PRO is built for large lawns, reducing labor needs and allowing teams to focus on other tasks. Its wired system allows operation in shaded commercial and industrial areas, and the team function lets up to 3 robots mow large spaces like sports fields using just one boundary wire. It offers full connectivity via STIHL's fleet management for remote tracking and adjustments. Environmentally friendly, it operates quietly with no emissions and can run 24/7. Customizable LED stripes allow for displaying corporate or club colors.

Note: Specifications are as of January 1, 2025. For most recent updates, visit www.stihl.ca. Models and specifications are subject to change without notice. Manufacturer reserves the right to change appearance, function and components of any STIHL product without prior notice or liability.

iMOW® & iMOW® EVO

PRODUCT HIGHLIGHTS AT A GLANCE

POWERFUL MOWING SYSTEM

With three free-swinging blades and electric cut-height adjustment

STEEP SLOPES

The iMOW® can operate on inclines up to 40%.

SITUATIONAL DRIVING BEHAVIOUR

The iMOW® adapts its speed to the situation at hand for a perfect cut.

RAIN SENSOR

Depending on the selected sensitivity setting of its rain sensor, the iMOW® can pause the mowing process during precipitation to protect wet grass.

EASY & INTUITIVE OPERATION

Via the MY iMOW® app. control panel with voice output and LED strip.

CONNECTIVITY - WIFI & BLUETOOTH®

Allows for convenient, flexible control of your iMOW® robotic mower.

VOICE CONTROL

Your iMOW® can be integrated into your smart home system and conveniently operated by voice control.

SHORT ACTIVE MOWING TIMES

Short charging and mowing times allow you to enjoy more leisure time on your lawn.

PROGRAMMABLE MOWING TIMES

Mowing plan to match the lawn size.

ZONE MANAGEMENT

If necessary you can divide your lawn into various zones, and these zones then be mown at different times.

QUIET AND UNOBTRUSIVE

The mowing system of the iMOW® robotic lawn mower is optimised to reduce disruption, ensuring that the mower is quiet and unobtrusive when in use.

ROBUST DESIGN

Our robotic mowers are made with 100% STIHL quality - for 100% reliability.

EASY BLADE REPLACEMENT

Changing the blades is easy and can be done without tools.

OVER-THE-AIR UPDATES

Access the latest functions and adjustments with regular updates.

MODERN DESIGN

Making the mower an attractive sight in your garden.

AMBIENT LIGHT

Individually adjustable LED strips.

iMOW® ALARM

Protects your iMOW® - for example, by deterring would-be thieves from carrying off your robotic mower.

ULTRASOUND SENSORS

Protect your mower as it negotiates obstacles.

WIDE RANGE OF ACCESSORIES

Allow you to get the most out of your iMOW® robotic mower.

EXCLUSIVELY WITH THE iMOW® EVO

STEEP SLOPES

The iMOW® EVO can operate on inclines up to 45%. And with the optional iMOW® Upgrade Kit 10, it can even master slopes up to 55%.

CONNECTIVITY - WIFI & BLUETOOTH® & MOBILE NETWORK

Facilitates flexible control of the iMOW® EVO robotic mower, even when you're not connected to your home wireless network.

LED MATRIX

For communication that's even more user-friendly.

iMOW® ACCESSORIES

iMOW® UPGRADE KIT 10

IA01 007 4700

For iMow 5 EVO, 6 EVO, and 7 EVO
Traction wheels for better all-terrain capability on uneven lawns and managing inclines up to 55%.

iMOW® BASIC BLADES

IA00 007 4201

For iMow 5, 5 EVO, 6 EVO, and 7 EVO
Pack of 9 spare iMow blades. Blades can be replaced easily and without using tools.

PERIMETER WIRE

IA00 400 8600-01

For: iMOW 5, 5 EVO, 6 EVO, 7 EVO, and 7 PRO.
For marking off the lawn area your robotic mower is to work on. Perimeter wire is included in delivery with all installation kits.

SUN CANOPY

IA01 780 4300

For: iMOW 5, 5 EVO, 6 EVO, 7 EVO, and 7 PRO.
Optional protection for your robotic mower against sunlight, dirt, and other weather effects.

WALL HOLDER

IA00 500 2300

For iMow 5, 5 EVO, 6 EVO, and 7 EVO
For convenient, compact storage of your robotic mower, docking station and charger. Delivery includes mounting material for securing the holder to the wall.

NEW iMOW® TRACTION WHEELS WITH SPIKES

IA01 007 4700

For: iMOW 5, 5 EVO, 6 EVO, 7 EVO, and 7 PRO.
Drive wheels for better traction on steep terrain despite the dew and rain.

2025 WARRANTY POLICY

HOMEOWNER WARRANTY	PROFESSIONAL WARRANTY
<p>5 YEAR AS/AI/AK TOOLS & BATTERIES</p>	<p>5 YEAR AP/AR BATTERIES 3 YEAR AP/AR TOOLS</p>

GENERAL NOTICE

1. This catalogue is valid as of January 1, 2025.
2. This catalogue renders all previous catalogues invalid.
3. No claims can be made based on the specifications and images in this catalogue. The design, technology, colours and features are subject to change without prior notice.
4. The brief descriptions and recommended uses of the various products provide a quick overview of the complete range, while the technical specifications help to find the machine that meets your needs.
5. Although the STIHL range shown in this catalogue is in line with the market requirements for Canada, STIHL Limited is not responsible for any model or product specifications that might change throughout the year. Some products may not be exactly as shown in the photos.
6. This catalogue and all its contents are copyright protected. All rights are reserved, particularly alteration, translation and reproduction with electronic systems.

This catalogue contains numerous combinations of tools and accessories designed for different applications and different kinds of users. For normal applications, we endorse the use of STIHL recommended combinations. These can be found in your operator's manual. STIHL Dealers can provide you with individual advice regarding the best combination to suit your needs.

STIHL products are regularly tested by German and international institutions. STIHL participates in these tests and inspections because they are considered to be the logical continuation of STIHL's own test programs and because STIHL attaches great importance to the findings of these independent institutions - particularly in the interests of STIHL customers. These institutions award test marks confirming the high quality and exemplary safety standards of STIHL products.
