**Re: Ammonia/CO2 Upgrade Project**

**Dear Gino,**

**On behalf of all the employees of Praxair Sarnia, please accept my sincere appreciation for the excellent job you and your staff have performed over the past several months designing and commissioning our Ammonia/CO2 Upgrade Project. It was an immense undertaking, but went flawless, and most importantly everyone conducted themselves in a safe manner.**

**Thanks to your leadership and dedication combined with your staff's teamwork and energy, we are now enjoying the increased reliability and operational uptime as a result of your work. The new Ammonia/CO2 level controls, Oil/Water temperature controls, Evaporator Condenser piping and (3) Heat Exchangers were delivered and installed ahead of schedule. You and your employees should take great pride in this accomplishment.**

**During the next few days I hope to personally thank each member of your team. In the meantime, please pass along my gratitude to Kevin, Mario, Stephan and Warner.**

**I would highly recommend CIMCO Refrigeration to others and look forward to working with you on the next project.**

**Best regards,**
