## MAGNETIC DRILLING SYSTEMS

### NEW PRODUCT!

### Unibor LP40

For  
quick,  
clean  
holes in  
metal

The new **LP40** provides the power, accuracy and efficiency of Unibor broach cutters in very restricted spaces.

With a fixed maximum height of 195mm, the unit will operate in 'U' and box sections, the easily accessible rear-mounted controls and the ratchet drive switchable to either side, give unrivalled flexibility for the most challenging applications. Light weight, high torque, integral oilfeed, automatic slug ejection and a swarf guard all add to the feature set of this highly versatile machine.
